

## SPACEWORKS ENTERPRISES, INC. (THE SEI GROUP)

is an Atlanta-based group with over 18 years of experience focused on next-generation space systems, future technologies, human and robotic exploration of space, and emerging space markets and applications. The SEI Group specializes in advanced concept development, systems engineering, product development, and economic consulting to enhance engineering design and analysis to a broad and diverse customer base.

Currently, The SEI group is actively pursuing technologies that can assist in spacecraft modularity.

### PERSISTENT GEO PLATFORMS ARCHITECTURE STUDIES

- Modular Communication Satellites
- Modular Sensor-based Satellites

### DOCKING CONNECTORS SUPPORTING DATA, POWER, AND HEAT TRANSFER

Standardization for space modularity is required to achieve next generation space technologies, and The SEI Group is looking to contribute in its development.
